

# Evaluator Example — Final v0.01

## Request Context

A request is submitted to evaluate eligibility for participation in a specified activity.

## Declared Attributes

The subject declares the following attributes:

- Industry classification: NAICS 541512
- Role classification: SOC 15-1252

## Stated Constraints

The evaluation is performed against the following constraints:

- Industry classification must fall within NAICS 54
- Role classification must correspond to a software-related occupation

## Evaluation Result

- **Eligibility:** Eligible
- **Explanatory Context:**

The declared industry classification falls within the stated range, and the declared role classification aligns with the specified occupational constraint. Based on the information provided, the request satisfies the stated constraints at the time of evaluation.
